The 35th International Symposium on Lattice Field Theory

Thursday 22 June 2017

Plenary Session - V - Auditorio Manuel de Falla (09:00-09:30)

- Conveners: Laine, Mikko

time	title	presenter
09:00	Axions in Cosmology: What we Need from the Lattice	MOORE, Guy

Plenary Session - V: Discussion session on axions and the chiral anomaly at finite temperature - Auditorio Manuel de Falla (09:30-10:45)

- Conveners: Laine, Mikko

time	title	presenter
09:30	The topological properties of QCD at high temperature: problems and perspectives	BONATI, Claudio
09:50	Is axial U(1) anomalous at high temperature?	FUKAYA, Hidenori
10:10	Temperature-dependence of the QCD topological susceptibility	KOVACS, Tamas G.
10:30	Round Table
